

LOCAL NEWSLETTER MAY 2019

/ BUILDING'S CORE TAKES SHAPE

We are continuing to pour concrete as the core of the building rises. As you can see from the photo below, we have reached Level 7 of the building's core, and have completed Lobby Level 4. By the beginning of June we will have reached Level 9 of the building's core.

This month we are starting the mechanical and electrical works in the basement areas of the building. This will enable us to construct our staff welfare areas in the basement, which provide a safe and pleasant environment for construction staff. We will then remove the temporary ground-level welfare units from the site in early June. The basement area is also being strengthened ahead of the arrival of structural steel on site next month.
