

LOCAL NEWSLETTER JUNE 2019

/ BUILDING'S CORE REACHES LEVEL 10

Since our last update, we have reached Level 10 of the building's core, as shown in the photo below. This month we will also complete Lobby Level 7.

You may have noticed that the erection of the steel frame that forms the skeleton of the building has commenced. A large mobile crane is now in place on Clarendon Road to enable us to make progress as the building gains in height.

The site entrance has been moved to the corner of Station Road and Verulam Passage. All of the temporary cabins have been removed from the site and the staff welfare areas are up and running in the basement levels. Mechanical and electrical works are now well underway in the basement levels.
