

LOCAL NEWSLETTER OCTOBER 2020

/ OCTOBER UPDATE

As we step into autumn, the final works on our headquarters are progressing well. The green wall on the side of the building (pictured below) has now been completed. You may also have noticed that the scaffolding has been removed from the site.

This month we will be continuing with the landscaping of the site. By the end of the month we will have finished the drainage connections to Clarendon Road.

Internally, we are fitting out the building and adding the polishing touches to the new offices, lifts and lobbies.

Towards the end of October, we will be removing the large hoist from the site (as shown below). As the hoist is attached to the side of the building, we will start to install the glass panels after its removal. This will be complete by the end of the year.
